library. As much as we try to advocate for our services, it is very difficult to encourage students to visit us. Also, we hope to get more attendance for our workshops due to more foot traffic in the Tutorial Center. Finally, we hope to have the necessary funding to stay open on Fridaysrad over the summer. Consolidating with the Tutorial Center and operating as a single service will bring down some of our costs and would give us the opportunity to be more available to the students.

Additionally, as we move to consolidating services, is imperative that the library's student printing services be improved There need to be clear instructions, signage, and an easily accessible location for printers. Alternative methods of payment and payment processing should also be considered; for examinate and of having a print card onto which students have to add funds, having a machine that can accept coins and ATM and/or credit card purchases would be useful. Finally, having at least one color printer/copier for student use would be appreciated.

13. How will the program measure the impact of the proposed changes?

A cost analysis would show clearly how much money would be saved if both services are provided under the supervision of one supervisor or coordinator. 7. Personnel – Permanent Norlinstructional

Please describe the specific position(s) and the number of positions only. (For example: We need two additional laboratory aides or classified staff.)

Adjustment of the ILT's position from 80% to 100% is necessary as we move forward with consolidating services with the Tutorial Center. It is our understanding that the ILT position itself is being reworked so that the job description aligns with the job duties and expectations. The increase in work assignment is necessary to process the number of students who register with the Writtner, produce reports regarding use and satisfaction, and to support the Writing Center activities. This assignment's work will only increase once the Writing Center and Tutorial Center merge. As noted previously, adjustment of this position is also nesery if the college wants to provide writing center support for summer students.

8. Personnel – Parttime Hourly

Please describe the specific position(s), the total number of hours for each position, and the hourly rate, if known. (For example: We need two additionaltimated laboratory instructional aides to work for 40 hours per week per semester estimated at \$15 per hour for an estimated total of \$19200 per academic year)

Front desk attendants:

\$1625 not covered by Federal Work Study (FWS): Federak\Study (FWS) requires students to work 10 hours per week but only provides \$3500 per student worker annually. 10 hours x \$12.75 = \$127.50 x 15 weeks = \$1912.50 x 2 semesters = \$3825; thus \$325 is needed per student worker. We currently utilize 5 students.

Additionally, FWS does NOT pay for summer employment, so an additional \$765 is needed (15 hours x \$12.75 x 4 weeks)

Student tutors:

- Fall/Spring: 50 hours/week x \$14.75 x 14 weeks x 2 semesters = \$20,650
- Summer: 15 hours x \$14.75 x 4 weeks = \$885
